He Kupu Whakataki nā te Poari o Te Māngai Pāho

E arahina ana te poari me ngā kaimahi o Te Māngai Pāho e tētahi mana kōkiri e mārama ana, e mārō ana anō hoki: kia hāpaingia ake te reo Māori me te ao Māori, kaua mā roto noa iho i ngā kaupapa pāho Māori e kounga ana, otirā, ka whāngaihia e mātou ki te pūtea, engari mā roto anō hoki i ngā kaupapa pāpātanga rautaki ka tautokongia e mātou.

Ko tō mātou tuakiri hei hinonga reo Māori te iho o tā mātou e whai nei, kia kōkiri whakamua ai a Aotearoa ki tētahi āpōpō e māori noa ai te noho o te reo Māori i ngā mahi o ia rā. He āpōpō e kitea ai, e rangona anō ai te reo Māori, otirā, e mātua kōrerotia ai, e kaingākautia anō ai e ngā tāngata katoa o Aotearoa.

I a tātou ka rāhiri anō i a Matariki, ka huritao ai i tō mātou tau 30 ka hipa nei, ka mihiā te ahunga whakamīharo o te reo Māori me te ao pāpāho Māori mai anō i te orokohanga mai o Te Māngai Pāho i te tau 1994. Hei whakamaharatanga hirahira tēnei ki ā tātou kokenga ngātahi, otirā ki te mate nui kia tohe tonu tātou mō te reo Māori. E ngākau tuwhera ana mātou ki ngā ara whai hua kei te aroaro, engari e whakaae ana he taero anō kei tua.

Ko ngā taero e pāpā ana ki ngā kawenga rongo o te wā puta noa i te rāngai pāpāho e mau tonu ana. Kua pāngia ngā pae rongo o te wā matua katoa i Aotearoa e ngā panonitanga nui i ngā marama 18 kua pahemo ake nei, mai anō i te rironga o ngā tūranga mahi, ki ngā nekehanga i te āhua e tuarihia ai ngā rongo o te wā. Nā runga i ngā whanonga kaimātakitaki e tere huri ana, me tētahi anga arumoni e tikoki haere ana, kāore e kore he panonitanga anō kei tua.

I te tau e haere ake nei, e ngākau titikaha ana a Te Māngai Pāho ki te mahi tahi ki te rāngai kia whakahou ā-rautaki nei i te āhua e waihangatia

ai, e tuarihia anō ai ngā kaupapa pāho Māori, kia whakamōrahingia ai ngā pāpātanga ki te reo Māori, kia tautoko anō ai i tōna tupuranga toitū. Mō te wāhi ki ngā kawenga rongo o te wā, ka whakamātāmuahia ko te auahatanga me te mahi tahi. Ka akiaki, ka tautoko hoki mātou i ngā ringa auaha Māori i ā rātou tono whai pūtea atu anō i te puna Screen Production Rebate, i ngā puna o tāwāhi anō hoki, e taea ai tā rātou waihangā kaupapa wāriu nui, pāpātanga nui anō hoki e kōkiri ana i te reo Māori.

Nā runga i te whānui o tana toro, me tōna mana whakaawe anō, kua kitea ake he kauwaka hirahira te waiata Māori, māna e whai wāhi ai ētahi kāhui apataki whānui ake ki te reo Māori. Nā Waiata Anthems i para te huarahi mō ētahi kaupapa angitu maha, nā konei i panonitia ai te ahumahi puoro me te manawa ū o ngā apataki ki te reo Māori. E kitea ana ēnei pāpātanga i ngā tohu whakanui o nā tata nei ki ngā kaiwaiata Māori, tae atu ki: te whakawhiwhinga o Anna Coddington ki te tohu Silver Scroll 2024 mō 'Kātuarehe', me ngā tohu e rua i riro i a TAWAZ i te kaupapa Aotearoa Music Awards mō 'He Aho'.

Ko tā mātou mahi hei Poari he whakapau kaha kia mātua rite a Te Māngai Pāho, kia āhei anō tāna tautoko i te rāngai pāpāho Māori kia takoha ki te reo Māori. E akiaki ana mātou i te hunga waihangā kaupapa, i ngā pae pāpāho anō, kia ū ki tētahi taiao e auaha ana, e arahina ana e ngā

raraunga, otirā, kia ngākau titikaha ki te arotake i ngā pānga ka hua i ā rātou kaupapa. E haere tonu ana ēnei mahi, ā, ka panoni ana te taiao mahi, ka urutau hoki mātou e hāngai tonu ai ā mātou mahi ki te pae tawhiti.

I tēnei tau, ka whai mātou ki te whakapakari i tō mātou aronga e arahina ana e ngā raraunga, ka whakapaipai ake ai i Te Whakapae Hua me ētahi taputapu raraunga kē atu. Ko te whāinga kia whakaputaina ētahi mōhiotanga whaipainga mā te hunga waihangā kaupapa pāho reo Māori, mā ngā pae e pāho ana i ngā kaupapa ki ngā apataki, mā mātou anō hoki hei kaituku pūtea. Hei tūāpapa mō tēnei aronga ko te whāinga kia totoro atu ngā kaupapa pāho ka whai pūtea i a mātou ki ngā apataki, ahakoa ki hea rātou rongo atu ai, me te aha, he ara whai tikanga tēnei hei whakaatu i tō mātou wāriu, hei whakapūmau hoki i tō mātou whai haumitanga e toitū ana.

He rite tonu tā mātou whakahau kia kaha ake te mahi tahi puta noa i te rāngai pāpāho Māori me te rāngai reo Māori. E tautoko ana mātou i tētahi ara mahi ngātahi hei whakatutuki i ō tātou whāinga ngātahi mō te reo Māori. Me ngātahi hoki tā tātou whai whakaaro ki te āhua e whakapaua ai ā tātou rawa kia mātua kōkiri whakamua ai ki ngā putanga e manakohia ana. Ko te mārama ki te wāhi o ā tātou haumitanga ki te whakatutukihia o te whāinga aumangea kia kotahi miriona te nui o te hunga kōrero Māori hei te tau 2040 hei tūāpapa mō te angitu ā-kāhui.

Ka kawea e Te Māngai Pāho ana mahi i raro i tētahi anga whakahaere e whāomo ana, me te aha ka otī i a mātou te toha tōtika atu i te 94% o tā mātou tahua ki te waihangatia me te whakapāhotia o ngā kaupapa pāho reo Māori e kounga ana. E aronui ana tō mātou kāhui manawanui ki te whakapiki tonu i ngā pānga o ā mātou mahi ki te reo Māori i te tau 2025/26.

I a tātou ka aro anō ki te aranga ake o Matariki, ka **whai whakaaro** tātou – ki te tau kua hori; ka **whakanui** tātou – i ngā angitutanga me ngā akoranga i puta; engari mātāmua ana, ka **arotahi anō** – ka whakamāherehere hoki e tutuki ai ō tātou whāinga mō te reo Māori. Mānawatia a Matariki mā Puanga!

Nā ngā wero kei mua i te aroaro, me māia te karawhiu e tutuki ai ō tātou whāinga mō te reo Māori. Kua kīa kētia, e panoni haere tonu ana te ao pāpāho, ka mutu, e horo haere ana te pērā. E rua tonu ngā momo wero kei mua i te aroaro o ngā pae pāpāho paehere o te momo o mua: me uua ka oti i a rātou te puru te ngaro haeretanga o te minenga me ngā pūtea whakatairanga ka whiwhi nei rātou. I ngā pae pāpāho nō tāwāhi e tū pakari ana, ka raru tā ngā pae o konei tere whakawhānui i a rātou whiwhinga moni nō ngā kaupapa pāpāho tuihono, hei whakaea i ngā whiwhinga paehere e heke haere ana. Kua tīmata kē tā mātou aro ki ēnei mahi, ā, hei ngā marama 12 e haere ake nei, ka mahi tahi mātou ki te rāngai kia whakapakari ake i te tono a te rāngai pāpāho Māori kia riro mai ai ngā tahua hei te anamata, kia whakapakari ake anō i tana manawaroa, ahatia ngā panonitanga nui.

E ū nei a Te Māngai Pāho ki te mahi tahi ki a Te Mātāwai, ki a Te Taura Whiri i te Reo Māori, ki a Whakaata Māori, ki a Irirangi te Motu, otirā, ki ētahi kē atu i te ao pāpāho reo Māori, i te ao pāpāho tūmatanui anō hoki hei taunaki i te whakakitenga ngātahi o Te Whare o te Reo Mauriora – ‘Kia Mauriora te Reo’.

Te whakakitenga

I ā mātou mahi katoa, e whai nei a Te Māngai Pāho ki te taunaki i te whakakitenga ngātahi o te Maihi Karauna:

Kia māhorahora te reo Māori!

Te whakatutuki i ngā putanga

I te whāinga o tō mātou
whakakitenga, anei ngā
putanga e mātua arumia ana:

■ KO TE PUTANGA MATUA

**Ka kaingākautia te reo Māori me te
ahurea Māori e Aotearoa whānui.**

■ KO TE PUTANGA PAEWAENGA

**He nui ake te reo Māori e
kōrerotia ana e ētahi tāngata
tokomaha ake o Aotearoa.**

■ KO TE PUTANGA PAETATA, Ā-TAU RĀNEI

**Ia tau 2% te nui o te

pūwaenga i te tauine KoPA.**

Kua tino rerekē te āhua o te tautoko ā-pūtea i ngā kaupapa pāho reo Māori i ngā tau 30 kua pahure ake nei. Ko ngā whanaketanga ā-hangarau, ko ngā whanonga pāpāho, ko te āhua hoki o te hangapori ka whai pānga ki te āhua e rangona ai e tātou, e ngā tāngata o Aotearoa, ngā kaupapa pāho. Kua mate a Te Māngai Pāho kia urutau ki ēnei panonitanga. I tutuki ai i a mātou tērā whāinga nā te ū ki tō mātou tino pūtake, e ai anō ki te ture – ko tā mātou he whakatairanga i te reo me te ahurea Māori mā roto mai i ngā mahi pāpāho.

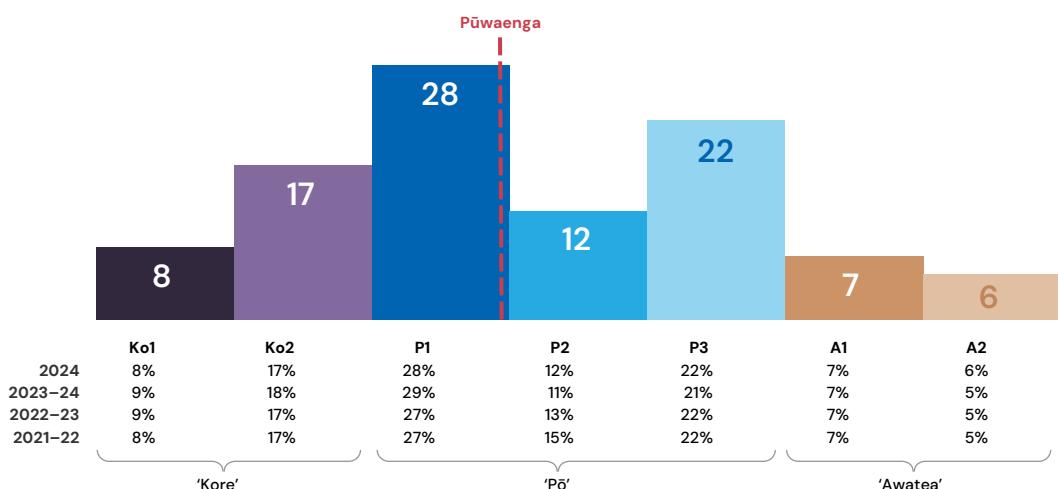

Mō te taha ki te whakarauoratia o te reo, ko te wāhi ki a mātou ko te whakapiki i te mana o te reo Māori. E kapi ana i tēnei ko te whakaaweawe i ngā tirohangā o ngāi tūmatanui ki te reo, me te uara o te reo e ai anō ki te porihanga. He wāhi hoki tō mātou ki te whakapiki i te tūoho, i te ako me te whakamahi i te reo, me ngā putunga kupu, heoi kāore i pērā rawa te nui. E mōhio ana mātou, ko ngā waiaro porihanga te wāhi nui katoa i ngā mahi whakarauora reo. Ko te kaingākautia o te reo Māori te hōkai tuatahi i te ara ki te ako me te whakamahi i a ia i ia rā. Nā konei, me mātua whakarite mātou kia hua he kaupapa pāho pārekareka hei tautoko i te huringa o aua waiaro, hei whakaaweawe hoki i te kitea, te rangona me te kōrerotia o te reo Māori.

I te tau 2016, i whakahāngaitia e mātou te tauine ZePA, he mea waihanga nā Tākuta Poia Rewi rāua ko Ahorangi Rawinia Higgins, ka whakaū ai i te tauine KoPA. Mai i taua wā, kua āta whai mātou i ngā waiaro me ngā whanonga o te taupori ki te reo Māori, mā te whakamahi i te tauine KoPA me ētahi tīpakohanga rangahau horopū nā AGB Nielsen. Ko tā te tauine he wāhi i te taupori o Aotearoa ki ngā rōpū e whitu. Kei te pito mauī o te tauine ko te hunga e arokore ana ki te reo Māori, ā, kei te pito katau ko ērā ka kaha ki te whakatairanga me te whakamahi i te reo Māori. E ai ki te whakaaro arorau, katoa te taupori kei waenga i aua pito tauaro e rua.

He Kupu Whakataki nā te Poari o Te Māngai Pāho

Introduction from the Board of Te Māngai Pāho

Our board and kaimahi at Te Māngai Pāho are driven by a clear and unwavering mandate: to champion te reo Māori and te ao Māori, not only through the quality Māori content we fund, but also through the strategic impact initiatives we support.

Our identity as a Māori language agency is central to our mission – helping drive Aotearoa towards a future where te reo Māori is seamlessly integrated into daily life. We want to see a future where te reo Māori is not only seen and heard but actively spoken and valued by all New Zealanders.

As we once again welcome Matariki and reflect on what was our 30th year, we recognise the remarkable evolution of te reo Māori and the changes to the Māori media landscape since Te Māngai Pāho opened its doors in 1994. This reflection is both a powerful reminder of our collective progress and the need for us to continue fighting for te reo Māori. We embrace the opportunities ahead but also acknowledge that there are challenges on the horizon.

The challenges facing news and current affairs across the whole media sector continue. Significant changes, from job losses to shifts in news dissemination, have impacted all major news platforms in Aotearoa within the last 18 months. Rapidly evolving audience behaviours and an increasingly tenuous commercial model suggests further transformation is inevitable.

In the year ahead, Te Māngai Pāho is committed to working with our sector to strategically re-shape the production and distribution of Māori content to both maximise the impact for te reo Māori and support sustainable growth. In the news and current affairs space, we will prioritise innovation and collaboration. We will encourage and support Māori creatives in their bids to access additional funding from the Screen Production Rebate and offshore sources, enabling them to produce high value, impactful projects that advance te reo Māori.

The reach and influence of Māori music has proven to be a powerful vehicle for introducing te reo Māori to wider audiences. *Waiata Anthems* paved the way for a string of successful initiatives, transforming both the music industry and audience engagement with te reo Māori. This impact is evidenced in recent accolades for Māori musicians including Anna Coddington's 2024 Silver Scroll Award win for 'Kātuarehe' and TAWAZ's double win at the Aotearoa Music Awards for 'He Aho.'

As a Board, we strive to ensure Te Māngai Pāho is ready and able to support the Māori media sector to contribute towards te reo Māori.

Autaia Haka Theatre, Mauri Media Limited

We encourage our content creators and platforms to embrace data-led, innovative approaches and to commit to evaluating the impact of their initiatives. This work is ongoing, and, as the landscape changes, we will adapt to ensure we are still working with te pae tawhiti in mind.

This year, we will focus on strengthening our approach to data, refining Te Whakapae Hua and other data tools. The aim is to develop valuable insights for the creators of Māori language content, the platforms that deliver content to audiences, and us as funders. Underpinned by a focus on ensuring our funded content reaches audiences wherever they consume it, this approach will be an essential driver in demonstrating our value and securing sustainable investment.

We have consistently advocated for greater collaboration across both the Māori media and Māori language sectors. We support a unified approach to achieve our collective aspirations for te reo Māori. Together, we must also carefully consider where we put our resources to ensure we are successfully working towards our intended outcomes. Understanding how our respective investments will contribute to the audacious goal of one million speakers by 2040 is fundamental to our collective success.

Lastly, Te Māngai Pāho operates with a highly efficient administrative framework, enabling us to allocate 94% of our total appropriation directly to the creation and delivery of quality te reo Māori content. Our committed team is focused on continuing to maximise our impact on te reo Māori in the 2025/26 year.

As we once again contemplate the arrival of Matariki, we take time to **reflect** – on the year that has been; to **celebrate** – the successes and learnings we have made; but more importantly, to **refocus** – and plan to realise our goals for te reo Māori. Mānawatia a Matariki mā Puanga!

Ngā Manako o Matariki, our 2025/26 Statement of Performance Expectations, reflects our proposed performance targets and forecast financial information for the year ending 30 June 2026 in accordance with sections 149E and 149G of the Crown Entities Act 2004.

Our Operating Environment

Mānawa maiea te putanga o Matariki

Mānawa maiea te ariki o te rangi

Mānawa maiea te Mātahi o te tau

Celebrate the rising of Matariki

Celebrate the rising of the lord of the sky

Celebrate the rising of the New Year¹

Matariki is a time for us to remember, reflect and learn; to reaffirm and celebrate our bonds; and to refocus our attention on the path ahead.

■ Matariki Hunga Nui – Remember, reflect and learn

This Matariki, we pause to reflect on the profound loss of incredible leadership in recent months. It is difficult to think of two women who have contributed more to te reo Māori and te ao Māori than Dame Iritana Tāwhiwhirangi and Dame Tariana Turia. Their remarkable and unwavering commitment will be sorely missed. To ensure that the void they leave behind does not cause us to stumble, we will need to embrace the ōhākī of Kīngi Tūheitia Pōtatau Te Wherowhero Te Tuawhitu – the principle of kotahitanga. Together we are so much stronger. This is how we honour those who have passed since the last time Matariki rose and ensure we continue moving forward.

Te Māngai Pāho is not exempt from the impacts and challenges facing the public and media sectors. While a significant boost in Māori media funding is unlikely in the near term, the media landscape continues to evolve at an ever-increasing speed and demands our attention. We will continue our work in the spirit of mahi tahi and kotahitanga to navigate the challenges ahead and find solutions that best serve te reo Māori.

While the proposed structural changes contemplated by the Public Media Review and the Māori Media Sector Shift (MMSS) Review did not proceed, the Minister for Māori Development's recent commissioning of further work signals transformational opportunities for us and the sector. Although this work is unlikely to produce any legislative changes in the

immediate future, the hope is that it will be a catalyst for behavioural shifts that will foster stronger collaboration and efficiency across the Māori media and Māori language sectors. The Ministry for Culture and Heritage is also actively pursuing further developments in the mainstream media landscapes. We acknowledge that the Māori media model, while largely isolated from the commercial pressures impacting mainstream media, has drawn heavily on that model. We can gain insights from the underlying lessons to inform our future direction.

We will draw upon the lessons learned over the years, while remembering the legacies of those who have left us. Together, with our enduring goals for te reo Māori, these principles will guide us as we navigate a pathway to improve our collective impact on the revitalisation of te reo Māori.

Matariki Ahunga Nui – Reaffirm and celebrate

Matariki once again provides us the opportunity to take stock and celebrate our successes. The 2024/25 year began with the broadcast of the national celebration of Te Rā Aro ki a Matariki hosted by Ngā Tahu at Kā Papa Toitoi. This occasion broke new ground with rangatahi joining the ranks of tohunga delivering karakia.

2024 was also an Olympic year, and Dame Lisa Carrington became the most successful Olympian in our history. Aotearoa won a total of 10 gold medals at the games including gold for the Black Fern Sevens and Dame Lydia Ko. For Te Māngai Pāho, our funded content through Sky Sport and Tuwhakairiora Limited gained over 10 million views and won a bronze award for the Best Social Media Campaign at the IOC Golden Rings Awards in Geneva.

More than 10 waiata reo Māori featured on the Official Top 20 Aotearoa Singles charts

1.5 million

More than 1.5 million people tuned in across the five-day festival

In the music industry, more than 10 waiata reo Māori featured on the Official Top 20 Aotearoa Singles charts and we doubled our funding for Oro Kura Roa so that we could fund two artists to focus on their music full-time while completing a body of work.

Most recently, we celebrated the return of another successful Te Matatini festival hosted by Te Kāhui Maunga in February 2025. The festival was broadcast on both Whakaata Māori and TVNZ and was a celebration of te reo Māori and te ao Māori. Overall, more than 1.5 million people tuned in across the five-day festival, a 42.7% increase from Te Matatini 2023.²

2. Te Māngai Pāho admin data.

From a Te Māngai Pāho perspective, this year we continued to make progress in fostering a more collaborative landscape. While progress is slower than we would like, we are moving in a positive direction. The way in which iwi, content creators and platforms worked together to deliver coverage of significant tangi including that of Kīngi Tūheitia showed the strength and agility of the Māori media sector and set the standard for collaboration. More recently, it was encouraging to see the willingness of Māori media to take the lead in developing a more sustainable model for Māori news and current affairs. There is more work to be done, but we are encouraged by the forward progress our sector is making.

Matariki Manako Nui – Refocus and look to the future

The challenges we face require bold actions to meet our goals for te reo Māori. As already noted, the media and communications landscape continues to evolve with ever-increasing speed. Traditional linear platforms continue to face challenges on two fronts: they are struggling to stem the loss of both audiences and advertising dollars. Stiff competition from the international platforms impedes their ability to quickly generate revenue from their online offerings to compensate for the declining linear revenue. This is part of the challenging landscape within which Māori media must also operate and succeed. Te Māngai Pāho believes that the collaborative approach we have championed represents the best opportunity for success.

As a sector, we need to embrace a collaborative, data-led model. The current economic climate strongly suggests that increases in government funding are unlikely for the foreseeable future. More importantly, we have time-limited funding that is due to expire at the end of June 2026 and it is vital that we have in place the

strategies and tools to present a compelling case for retaining that funding. This includes using data to help build a strong understanding of our audiences and the impact our funding has on te reo Māori. We have already started this work and over the next 12 months, we will work with the sector to strengthen the Māori media case for future funding and build its capacity to withstand dramatic change.

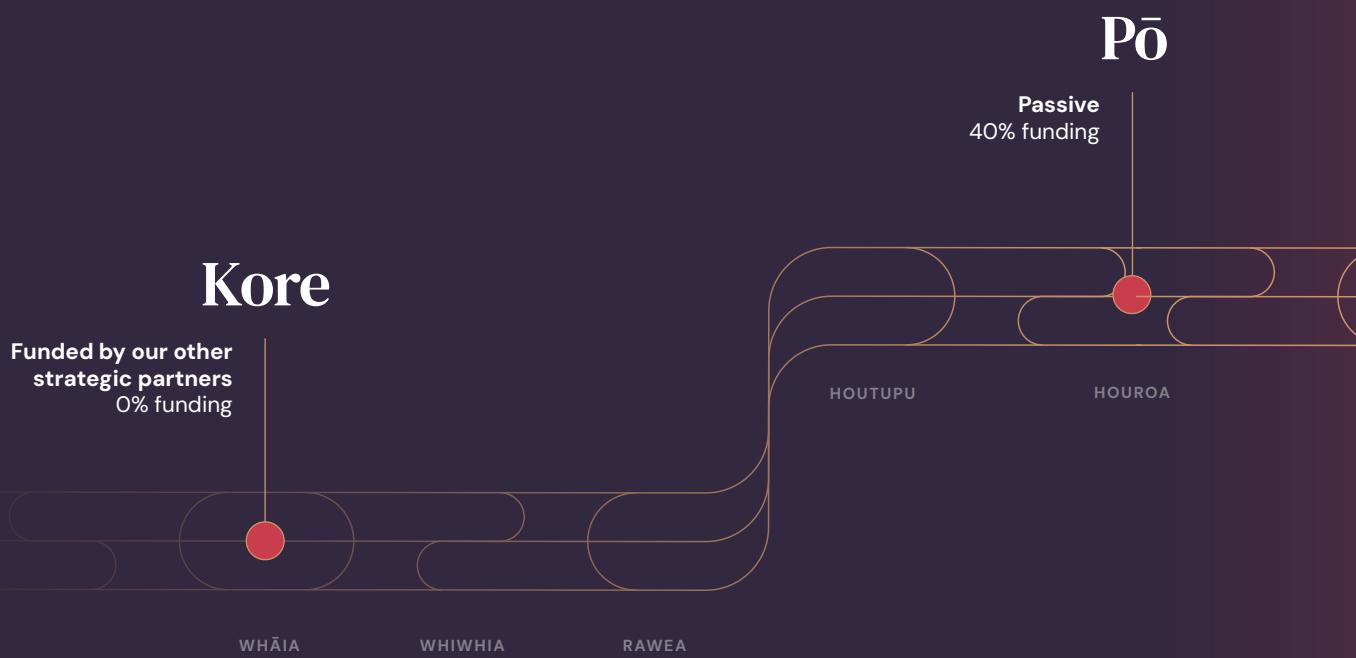

This year's theme for Matariki is *Matariki mā Puanga*. While both Matariki and Puanga signify the start of the Māori New Year, different iwi across the motu look to the different stars as their main marker for the New Year. As Aotearoa whānui acknowledges our past, celebrates our present and looks forward to a bright and prosperous future, *Matariki mā Puanga* is a reminder that regardless of our different backgrounds, origins, and practices, this is a time to come together and share the many unique elements that shape us as Aotearoa.

Te Māngai Pāho is committed to working with Te Mātāwai, Te Taura Whiri i te Reo Māori, Whakaata Māori, Irirangi Te Motu, the NZ Film Commission and others in both the Māori language and public media space to support the shared vision of Te Whare o te Reo Mauriora – 'Kia Mauriora te Reo'.

What it means to fund Māori language content has changed significantly in our 30 year history. Evolutions in our technology, media habits and social demographic are all contributing factors to the way in which we, as New Zealanders, consume media. Te Māngai Pāho has had to adapt to these changes. The way in which we have achieved that is to stay true to our legislative purpose – we promote Māori language and culture through broadcasting.

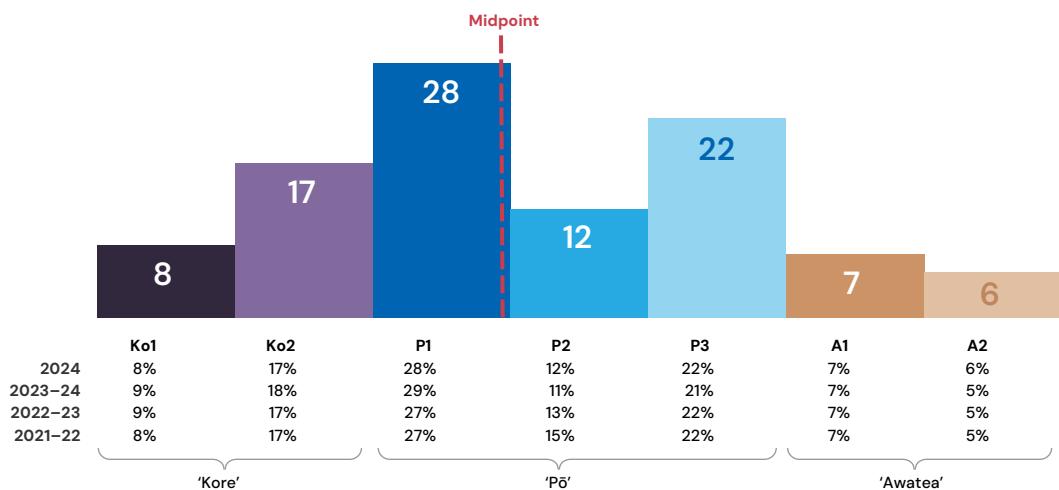

For language revitalisation efforts, we contribute to improving the status of te reo Māori. This includes influencing public perceptions and societal value placed upon te reo Māori. We also contribute to critical awareness, language acquisition, use, and corpus, but in a much smaller way. We know that societal attitudes are the key to achieving language revitalisation. To value te reo Māori is the first step to learning and using it every day. For us, this means that we need to ensure there is entertaining content available to help shift those attitudes and encourage te reo Māori to be seen, heard and spoken.

In 2016, we adapted the theoretical ZePA model developed by Dr Poia Rewi and Professor Rawinia Higgins, and implemented the KoPA model. Since then, we have tracked the population's attitudes and behaviours towards te reo Māori using the KoPA model and robust sampling provided by AGB Nielsen. The model segments the population of Aotearoa into seven groups. At the left end of a continuum are those who have no interest in te reo Māori, while at the right end of that continuum are active promoters and users of te reo Māori. Logically, the entire population sits somewhere between those two extremes.

While there is no one key lever that can drastically shift people's attitudes and behaviours, everything we do is with the aim of right-shifting the population along the KoPA continuum. As illustrated in the diagram below, after a concerning period of time where we observed a left-shift in the population's midpoint of attitudes and behaviours, we have finally seen a small **positive right-shift**. This is significant and restores our confidence in the work we do. It also reassures us that while this work may be slow and incremental, we are achieving our goal of right-shifting the population.

KoPA provides us with a tool which not only helps us with funding decisions but also provides a snapshot of the wider te reo Māori eco-system, including the political environment. However, to further understand what actions we as Te Māngai Pāho can make to contribute to a right-shift on the KoPA model, we also need additional data tools to better understand the effectiveness of our funding decisions.

In 2023, we developed and trialled Te Whakapae Hua, an impact model measurement tool. This tool uses data from the Nielsen Consumer Media & Insights (CMI) survey to measure the impact that the content we fund has on the population. To assess impact, Te Whakapae Hua catalogues linear programme data and aligns it with audience data along the KoPA continuum.

Each programme then receives an impact score out of 100. While we are excited by the potential of this tool, further testing and refinement are required, along with its expansion to other areas where our funded content is released before it can be widely shared.

We realise that we are in a constrained economic environment and that understanding the impact of individual investment decisions is more critical than ever. The challenge for Te Māngai Pāho is trying to balance the competing demands of a growing number of platforms, more content creators, over-subscribed funding rounds with the potential for impact. Having access to robust data is crucial in informing our decisions and substantiating our case for increased funding.

Investment in content that grows engagement and promotes right-shift

KEY FOCUS AREAS

To achieve our outcomes we will focus on three key areas:

Ngā Kaiwaihangā Creators

Encourage, develop and support Māori creative talent and capability.

Ngā Kaupapa Pāho Content

Encourage creativity, innovation and excellence in the production of Māori content.

Ngā Minenga Audiences

Grow audiences and engagement with high quality easily accessible Māori language content.

To maximise the impact of our investments, we will take the following steps:

Invest in the development of Māori creative talent by funding development opportunities to build a strong community of Māori language content creators and sustainable businesses that will support a thriving and impactful Māori media sector.

Fund innovative, receptive and fluent Māori language content, through contestable funding rounds to produce rich and engaging Māori content for a broad range of audiences. This will help shift societal attitudes towards a more positive view of Māori language and culture and ultimately lead to more people speaking te reo Māori.

Make innovative Māori content more accessible by collaborating with platforms to prioritise our funded content and expand audience reach. This will raise the status of te reo Māori which will ultimately lead to an increase in the number of people right-shifting towards positive views of te reo Māori.

Te Ine Tutukinga Measuring Our Performance

To ensure strategic accountability and efficient resource allocation, Te Māngai Pāho employs a four-tiered framework of 25 measures to track our progress towards achieving our target outcomes and align with our core vision. This framework includes:

Strategic measures

Grounded in the KoPA model segmentation questions, these measures track shifts in attitudes and behaviours towards te reo Māori, with a target of a 2% annual population right-shift.

Appropriation measures

Provides a clear assessment of performance against total funding received, ensuring accountability for public funds.

Investment measures

Focused on achieving targeted outcomes across our key funding categories: Diverse Content, Māori Music, Māori Radio and Industry Support.

Operational measures

Ensuring proactive release of funding decisions and compliance of funded entities.

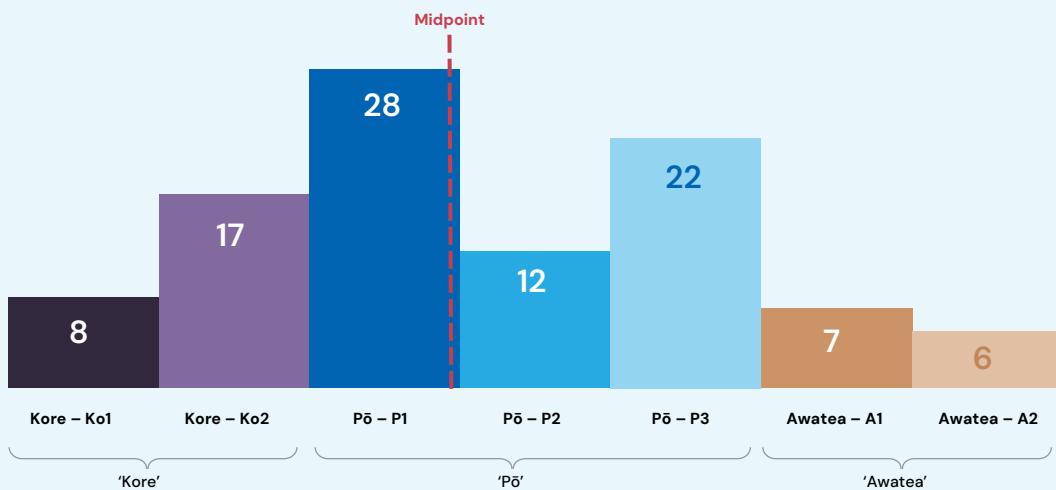

■ KoPA – Right-Shifting

As explained in pages 18–19, the KoPA model segments the population along a language and cultural-behaviour learning continuum. It is important to remember that the KoPA model measures attitudes and behaviours toward te reo Māori and not fluency. The model highlights how right-shifting the position of an individual from Kore (Zero) to Pō (Passive) to Awatea (Active) can strengthen the position of the language within society. To provide a richer understanding of the KoPA journey, the population has been further segmented as shown in the illustration below. There are two subsets of Kore, three of Pō, and two of Awatea. Our aim is to right-shift the midpoint by 2% each year.

The Nielsen CMI survey gathers demographic and lifestyle data from New Zealanders. Te Māngai Pāho has inserted a number of questions including KoPA segmentation questions into the survey. The survey is robust, surveying 2,500 New Zealanders every quarter giving an annual sample of 10,000. Te Māngai Pāho has subscribed to the survey since 2021, and therefore, has the ability to track progress over time and identify trends. While individual

strategic measures have remained largely within the margin of error, and a concerning leftward trend in the midpoint emerged in recent years, this year's data signals a significant positive right-shift.

To ensure a comprehensive understanding of our strategic performance metrics, the following explanations are provided and should be read in conjunction with the table on page 28–29.

Treaty Talks, tutu Productions Limited

KoPA midpoint

The KoPA midpoint is measured by the collective responses to questions on attitudes, behaviours, use, awareness, influence and societal perspectives regarding Māori language and culture in the CMI survey. It serves as a crucial barometer for our progress in right-shifting the population. Movement on the KoPA scale signals a promising change in the growing acceptance and integration of te reo Māori and tikanga Māori within New Zealand society, demonstrating the effectiveness of our collective efforts.

The following strategic performance measures are evaluated through the KoPA segmentation questions, providing critical insights into:

Attitudes

We monitor two pivotal attitudinal indicators: the perceived value of te reo Māori and Māori culture among all New Zealanders. While recent fluctuations presented a temporary challenge, the 2024 results indicate a return to our 2021 baseline. This data informs our strategies to reinforce the significance of te reo Māori.

Behaviours

This measure tracks participation in Māori language and culture activities over the past 12 months. Activities include learning, conversing and teaching te reo Māori, as well as cultural engagement. While results are within the margin of error, we must conduct further analysis to determine if this reflects genuine participation trends or survey limitations. Given the observed increase in the demand for te reo Māori courses and Māori content engagement, and Māori content engagement, understanding this discrepancy is crucial for targeted interventions. This measure is tracked by cumulative responses to the CMI survey and includes those who selected any of the following survey responses:

- › Taught a word, phrase, or aspect of Māori culture to someone
- › Shared with others by using te reo in daily conversation
- › Shared social media content in te reo or about Māori culture
- › Formally studied at an educational institution
- › Participated in classes through your workplace
- › Participated in community evening classes
- › Participated in a marae based course.

Use

We assess language use through two key questions: the ability to hold a basic conversation and the frequency of te reo Māori use. Results are within the margin of error, highlighting the need for nuanced interpretation due to the potential for self-assessment biases. The two measures are tracked respectively by those who selected 'Able to hold a basic conversation' and 'Ongoing throughout the day' in response to the CMI survey.

Awareness

This measure gauges public awareness of Māori culture and understanding of Māori issues. Given the significant influence of news and current affairs, especially amid media sector challenges, maintaining this measure is paramount. It provides valuable insights into the effectiveness of our efforts to inform New Zealanders about Māori issues.

Influence

This measure tracks the drive to learn and deepen understanding of te reo Māori and culture. Results are cumulative and assess both existing knowledge and active learning habits. The gap between expressed intent (or influence) and actual behavioural change warrants further investigation to identify the motivating factors that can shift people's behaviours and increase their use and understanding of te reo Māori. The first measure reflects the intention to improve one's understanding of te reo Māori, as indicated by those who selected one of the following responses to the CMI survey:

- › I already have a sound understanding of te reo Māori
- › Yes, and currently doing something to improve understanding
- › Yes, but not doing anything to improve understanding.

The final strategic measure assesses the quality and impact of Māori language content.

Quality Māori language content

This evaluates the quality and impact of Māori language content across two key measures.

We employ a two-step approach:

1

A baseline of audience engagement across various platforms is established by identifying those who have watched and/or listened to Māori content.

2

CMI respondents are asked to indicate whether their te reo Māori ability and knowledge of Māori culture have improved as a result of consuming Māori content.

Although we cannot attribute this solely to our funded content, these insights offer a valuable perspective on the broader impact of Māori content. The KoPA segmentation questions we have included are specifically designed to track our performance against the measures outlined in the table on page 28–29.

Images left to right: Te Kūkupa, Ngāti Hine, Te Hiku Media and Tautoko FM; Majic, Waiata Anthems, Notable Pictures Limited; Ahikāroa, Kura Productions Limited; Hōhi Riding On, Kapu Ti Productions Limited

Audience measures

To assess the impact of Te Māngai Pāho funding, audience metrics are tracked as part of both appropriation and investment measures, focusing on growth in audiences engaging with funded content.

These results are based on cumulative CMI survey data, which evaluates changes from the previous year in the following responses:

Viewed content on Whakaata Māori or the Te Reo channel

Viewed te reo Māori or Māori culture TV programmes on other channels, in either English or te reo Māori

Listened to Māori music or songs (radio or online)

Listened to iwi radio (radio or online).

This measurement is further segmented into investment measures across three of our four funding categories: Diverse Content, Māori Music and Māori Radio, Industry Support, with the percentage changes on the previous year reported on pages 30–31.

Statement of Accounting Policies

For the year ending 30 June 2026

■ Reporting Entity

Te Māngai Pāho is a Crown Entity as defined by the Crown Entities Act 2004 and is domiciled and operates in New Zealand. The relevant legislation governing Te Māngai Pāho's operations includes the Broadcasting Act 1989, the Crown Entities Act 2004 and Te Ture mō Te Reo Māori 2016. Te Māngai Pāho's ultimate parent is the New Zealand Crown.

The primary function of Te Māngai Pāho is to promote the Māori language and Māori culture by making funds available for broadcasting, the production of programmes to be broadcast and archiving programmes.

As a secondary function Te Māngai Pāho may also make funds available for transmitting on demand, producing content for transmitting on demand and archiving content and other activities to promote the Māori language and culture.

In the exercise of these functions Te Māngai Pāho will consult from time to time with representatives of Māori interests, broadcasters and others who, in the opinion of Te Māngai Pāho, can assist in the development of funding policies.

Te Māngai Pāho has designated itself as a public benefit entity (PBE) for financial reporting purposes and does not operate to make a financial return.

■ Basis of Preparation

The financial statements have been prepared on a going concern basis and the accounting policies have been applied consistently throughout the period.

Statement of compliance

The financial statements have been prepared in accordance with the requirements of the Crown Entities Act 2004 which includes the

requirement to comply with generally accepted accounting practice in New Zealand (NZ GAAP). The financial statements have been prepared in accordance with Tier 1 PBE accounting standards and comply with PBE standards.

Presentation currency and rounding

The financial statements are presented in New Zealand dollars and all values are rounded to the nearest million dollars (\$m).

■ Summary of Significant Accounting Policies

Revenue

The specific accounting policies for significant revenue items are explained below:

Revenue from the Crown

Te Māngai Pāho is primarily funded from the Crown and this funding is restricted in its use for the purpose of Te Māngai Pāho meeting the objectives specified in its founding legislation and the scope of the relevant Crown appropriations. Te Māngai Pāho considers there are no conditions attached to the funding and it is recognised as revenue at the point of entitlement. The fair value of revenue from the Crown has been determined to be equivalent to the amounts due in the funding arrangements.

Interest revenue

Interest revenue is recognised using the effective interest method.

Treatment of the Allocation of Funds

The allocation of funds to broadcasting projects is recognised as expenditure in the financial year the allocation is made provided that, prior to the end of the financial year, the project has received Board approval and both parties have signed the funding contract. Expenditure therefore includes funds allocated but not paid out at the year end. The funds not paid out are

recorded as funding liabilities in the statement of financial liability. This liability is reduced as the applicant is paid according to the drawdown schedule specified in the production contract.

Once payments have been made according to the drawdown schedule there is no obligation to return any funding unless the total amount of the final payment is not required on completion of the project.

Operating leases

An operating lease is a lease that does not transfer substantially all the risks and rewards incidental to ownership of an asset to the lessee. Lease payments under Te Māngai Pāho's operating lease for its premises are recognised as an expense on a straight-line basis over the lease term.

Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of three months or less.

Receivables

Short-term receivables are recorded at their face value, less any provision for impairment.

A receivable is considered impaired when there is evidence that Te Māngai Pāho will not be able to collect all amounts due. The amount of the impairment is the difference between the carrying amount of the receivable and the present value of the amounts expected to be collected.

Investments

Bank term deposits

Investments in bank term deposits are initially measured at the amount invested. After initial recognition, investments in bank deposits are measured at amortised cost using the effective interest method, less any provision for impairment.

Property, plant and equipment

Property, plant and equipment consists of five asset classes. These are office equipment, furniture and fittings, computer equipment, leasehold improvements and motor vehicles. All these asset classes are measured at cost less accumulated depreciation and impairment losses.

Additions

The cost of an item of property, plant and equipment is recognised as an asset only when it is probable that future economic benefits or service potential associated with the item will flow to Te Māngai Pāho and the cost of the item can be measured reliably. In most instances an item of property, plant and equipment is initially recognised at its cost. Where an asset is acquired through a non-exchange transaction it is recognised at its fair value as at the date of acquisition. Costs incurred after initial acquisition are capitalised only when it is probable that future economic benefits or service potential associated with the item will flow to Te Māngai Pāho and the cost of the item can be measured reliably. The costs of day-to-day servicing of property, plant and equipment are expensed in the surplus or deficit as they are incurred.

Disposals

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount of the asset. Gains and losses on disposals are reported net in the surplus or deficit.

Depreciation

Depreciation is provided on a straight-line basis on all property, plant and equipment, at rates that will write off the cost of the assets to their estimated residual values over their useful lives. The useful lives and associated depreciation rates of major classes of property, plant and equipment have been estimated as follows:

Office Equipment	5 years	20%
Furniture & Fittings	9 to 10 years	11%
Computer Equipment	2.5 years	40%
Leasehold Improvements	4 to 6 years	17–25%
Motor Vehicle	5 years	20%

Leasehold improvements are depreciated over the unexpired period of the lease, or the estimated remaining useful lives of the improvements, whichever is the shorter.

Impairment of property, plant and equipment

Property, plant and equipment and intangible assets held at cost that have a finite useful life are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised for the amount by which the carrying amount of the asset exceeds its recoverable amount. The recoverable service amount is the higher of an asset's fair value, less costs to sell, and value in use. Value in use is the present value of an asset's remaining service potential. It is determined using an approach based on depreciated replacement cost.

If an asset's carrying amount exceeds its recoverable amount the asset is regarded as impaired and the carrying amount is written down to the recoverable amount. The total impairment loss is recognised in the surplus or deficit. The reversal of an impairment loss is recognised in the surplus or deficit.

Critical accounting estimates and assumptions

The useful lives and residual values of property, plant and equipment are reviewed at each balance date. In doing this, a number of factors are considered, including the physical condition of the asset, the expected period of use of the asset by Te Māngai Pāho and expected disposal proceeds from the future sale of the asset.

Te Māngai Pāho has not made changes to past assumptions concerning useful lives and residual values.

Intangible assets

Software acquisition and development

Acquired computer software licences are capitalised on the basis of the costs incurred to acquire and bring to use the specific software.

Costs that are directly associated with the development of software for internal use are recognised as an intangible asset. Direct costs include software development, employee costs and an appropriate portion of relevant overheads.

Staff training costs are recognised as an expense when incurred.

Costs associated with maintaining computer software are recognised as an expense when incurred.

Costs associated with development and maintenance of the website of Te Māngai Pāho are recognised as an expense when incurred.

Amortisation

The carrying value of an intangible asset with a finite life is amortised on a straight-line basis over its useful life. Amortisation begins when the asset is available for use and ceases at the date that the asset is derecognised. The amortisation charge for each financial year is recognised in the surplus or deficit.

The useful lives and associated amortisation rates of major classes of intangible assets have been estimated as follows:

Acquired computer software	3 years	33%
Developed computer software	4 years	25%

Impairment of Intangible assets

Refer to the policy for impairment of property, plant and equipment. The same approach applies to the impairment of intangible assets.

Critical accounting estimates and assumptions

The useful lives of the software are considered reasonable based on the current performance and use of the software and there are currently no indicators that the period of use of the software will be materially different.

Payables

Short term payables are recorded at the amount payable.

Employee entitlements

Short-term employee entitlements

Employee benefits that are due to be settled within twelve months after the end of the period in which the employee provides the related service are measured based on accrued entitlements at current rates of pay. These include salaries and wages accrued up to balance date, annual leave earned but not yet taken at balance date, and sick leave.

A liability and an expense are recognised for bonuses where there is a contractual obligation, or where there is a past practice that has created a constructive obligation, and a reliable estimate of the obligation can be made.

Provisions

A provision is recognised for future expenditure of an uncertain amount or timing when there is a present obligation (either legal or constructive)

as a result of a past event, it is probable that expenditure will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Income Tax

No income tax liability is incurred in respect of any operations. Te Māngai Pāho is exempt from income tax in accordance with section 53O of the Broadcasting Act 1989.

Goods and Services Tax

The financial statements have been prepared on a GST exclusive basis, except for receivables and payables, which are recorded on a GST inclusive basis. Where GST is not recoverable as input tax, it is recognised as part of the related asset or expense.

The net amount of GST recoverable from or payable to Inland Revenue is included as part of receivables or payables in the statement of financial position.

The net GST received from or paid to Inland Revenue, including the GST relating to investing and financing activities, is classified as an operating cash flow in the statement of cash flows. Commitments and contingencies are disclosed exclusive of GST.

Budget Figures

The budget figures are derived from the statement of performance expectations as approved by the Board at the beginning of the financial year. The budget figures have been prepared in accordance with NZ GAAP, using accounting policies that are consistent with those adopted by the Board in preparing these financial statements.

Commitments

Future payments are disclosed as commitments at the point when a contractual obligation arises, to the extent that they are equally unperformed obligations. Commitments relating to employment contracts are not disclosed.

Output Cost Statements

The Output Cost Statements, as reported in the Statement of Performance, report the total funding allocations made for the Diverse Content, Māori Music, Māori Radio and

Industry Support outputs for the year ending 30 June 2026. They also report the costs of administrative activities undertaken by Te Māngai Pāho.

There have been no changes to the cost allocation methodology since the date of the last audited financial statements.

Critical accounting estimates and assumptions

In preparing these financial statements, Te Māngai Pāho has made estimates and assumptions concerning the future. Subsequent actual results may differ from these estimates and assumptions. The estimates and assumptions are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Key estimates and assumptions are:

- › Broadcasters and producers will fulfil their legal obligation within the timeframe as per the contract.
- › Te Māngai Pāho assesses property, plant and equipment's useful lives and residual value by considering a number of factors such as the physical condition of the asset, expected period of use of the asset by Te Māngai Pāho and expected disposal proceeds from the future sale of the asset.
- › Te Māngai Pāho has not made significant changes to past assumptions concerning useful lives and residual values.

Critical judgements in applying accounting policies

Management has exercised no critical judgements in applying the accounting policies for the year ending 30 June 2026.
